Overlaminate

Product Guide

Overlaminate for protection against UV light, moisture and abrasion.

What is Colorgard® LUV?

Colorgard LUV is a 5-7 year overlaminating film designed to enhance and protect all your digital and photographic images, from UV light degradation, moisture, dirt and abrasion. LUV overlaminates are specifically designed to immediately wet-out over UV inkjet prints.

Where does Colorgard LUV perform?

- General purpose lamination of digital images
- Event graphics
- Outdoor signage
- Murals and exhibits
- Retail posters and displays
